| | 4. First Aid Measures | |
|--|--|---|
| Inhalation | If inhaled: Remove person to fresh air and keep comfortal poison center/doctor/. | ble for breathing. Immediately call a |
| Skin contact | If on skin (or hair): Take off immediately all contaminated Wash contaminated clothing before reuse. Specific treatm a poison center/doctor/. | |
| Eye contact | If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present an easy to do. Continue rinsing. Immediately call a poison center/doctor. | |
| Ingestion | If swallowed: Rinse mouth. Do NOT induce vomiting. Imm | ediately call a poison center/doctor/. |
| Most important symptoms/effects, acute and delayed | Burning pain and severe corrosive skin damage. Causes include stinging, tearing, redness, swelling, and blurred vis blindness could result. | |
| Indication of immediate medical attention and special treatment needed | Provide general supportive measures and treat symptoma | atically. Symptoms may be delayed. |
| General information | Ensure that medical personnel are aware of the material(s protect themselves. If you feel unwell, seek medical advic this safety data sheet to the doctor in attendance. Avoid c gloves and chemical splash goggles. Keep out of reach of | e (show the label where possible). Show ontact with eyes and skin. Wear rubber |
| | 5. Fire Fighting Measures | |
| Suitable extinguishing media | Treat for surrounding material. | |
| Unsuitable extinguishing media | Do not use water jet as an extinguisher, as this will spread | the fire. |
| Specific hazards arising from the chemical | Firefighters should wear a self-contained breathing appara | atus. |
| Special protective equipment and precautions for firefighters | Firefighters should wear full protective clothing including s | • |
| Fire-fighting equipment/instructions | Move containers from fire area if you can do so without ris | |
| Specific methods | Use standard firefighting procedures and consider the haz | |
| Hazardous combustion products | May include and are not limited to: Hydrogen chloride. Ox | ygen. |
| Explosion data Sensitivity to mechanical impact | Not available. | |
| Sensitivity to static discharge | Not available. | |
| | 6. Accidental Release Measures | |
| Personal precautions, protective equipment and emergency procedures Methods and materials for | Keep unnecessary personnel away. Keep out of low areas spill/leak. Wear appropriate protective equipment and clot mist or vapor. Do not touch damaged containers or spilled protective clothing. Ensure adequate ventilation. Local aut spillages cannot be contained. For personal protection, se Should not be released into the environment. | hing during clean-up. Do not breathe I material unless wearing appropriate thorities should be advised if significant |
| containment and cleaning up | Large Spills: Stop leak if you can do so without risk. Dike a possible. Cover with plastic sheet to prevent spreading. A damage. Absorb in vermiculite, dry sand or earth and plac waterways, sewer, basements or confined areas. Following | bsorb spillage to prevent material e into containers. Prevent entry into |
| | Small Spills: Wipe up with absorbent material (e.g. cloth, remove residual contamination. Never return spills to origi | |
| | Never return spills to original containers for re-use. For wa Prevent entry into waterways, sewers, basements or confi | |
| Environmental precautions | Avoid discharge into drains, water courses or onto the gro streams, ponds or public waters. | und. Do not discharge into lakes, |
| | 7. Handling and Storage | |
| Precautions for safe handling | Use only with adequate ventilation. Avoid prolonged expo protective equipment. Wash thoroughly after handling. Us handling this material. Avoid breathing vapors or mists of skin or clothing. | e good industrial hygiene practices in |
| #7842 | Page: 2 of 9 | Issue date 17-August-2015 |

Store locked up. Store in corrosive resistant container with a resistant inner liner. Keep only in the original container. Store in a cool, dry place out of direct sunlight. Store away from incompatible materials (see Section 10 of the SDS).

8. Exposure Controls/Personal Protection

| Components | Туре | Value |
|--|--|---|
| Sodium hydroxide (CAS 1310-73-2) | PEL | 2 mg/m3 |
| US. ACGIH Threshold Limit | Values | |
| Components | Туре | Value |
| Sodium hydroxide (CAS 1310-73-2) | Ceiling | 2 mg/m3 |
