1. Product and Company Identification

Product identifier: Dry Cleaner’s Secret, Woolite Dry Cleaner's Secret
Other means of identification: Not available
Recommended use: At home dry cleaning
Recommended restrictions: None known.
Manufacturer information: Iron Out dba Summit Brands
6714 Pointe Inverness Way
Suite 200
Fort Wayne, IN 46804-7935 US
Phone: 260-483-2519
Emergency Phone: 1-800-424-9300 (CHEMTREC)
Supplier: See above.

2. Hazards Identification

Physical hazards: Category 4 Flammable liquids
Health hazards: Not classified.
Environmental hazards: Not classified.
WHMIS 2015 defined hazards: Not classified

Label elements
- Hazard symbol: None.
- Signal word: Warning
- Hazard statement: Combustible liquid.
- Precautionary statement:
  - Prevention: Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Wear protective gloves, protective clothing, eye protection and face protection.
  - Response: In case of fire: Use appropriate media to extinguish.
  - Storage: Store in a well-ventilated place.
  - Disposal: Dispose of container in accordance with local, regional, national and international regulations.

WHMIS 2015: Health Hazard(s) not otherwise classified (HHNOC): None known
WHMIS 2015: Physical Hazard(s) not otherwise classified (PHNOC): None known
Hazard(s) not otherwise classified (HNOC): None known.
Supplemental information: Not applicable.

3. Composition/Information on Ingredients

<table>
<thead>
<tr>
<th>Mixture</th>
<th>Common name and synonyms</th>
<th>CAS number</th>
<th>%</th>
</tr>
</thead>
<tbody>
<tr>
<td>Distillates (petroleum), light hydrotreated</td>
<td>64742-47-8</td>
<td>80-100*</td>
<td></td>
</tr>
</tbody>
</table>

All concentrations are in percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume.

Composition comments: US GHS: The exact percentage (concentration) of composition has been withheld as a trade secret in accordance with paragraph (i) of §1910.1200.
*CANADA GHS: The exact percentage (concentration) of composition has been withheld as a trade secret.

4. First Aid Measures

Inhalation: If symptoms develop move victim to fresh air. If symptoms persist, obtain medical attention.
Skin contact: Flush with cool water. Wash with soap and water. Obtain medical attention if irritation persists.
Eye contact
Flush with cool water. Remove contact lenses, if applicable, and continue flushing. Obtain medical attention if irritation persists.

Ingestion
Rinse mouth. Do not induce vomiting. If vomiting occurs, keep head low so that stomach content doesn't get into the lungs. Get medical attention if symptoms occur.

Most important symptoms/effects, acute and delayed
Direct contact with eyes may cause temporary irritation.

Indication of immediate medical attention and special treatment needed
Treat patient symptomatically.

Ensure that medical personnel are aware of the material(s) involved and take precautions to protect themselves. If you feel unwell, seek medical advice (show the label where possible). Show this safety data sheet to the doctor in attendance. Keep away from sources of ignition. No smoking. Keep out of reach of children.

5. Fire Fighting Measures

Suitable extinguishing media

Unsuitable extinguishing media
Do not use water jet as an extinguisher, as this will spread the fire.

Specific hazards arising from the chemical
The product is combustible, and heating may generate vapors which may form explosive vapor/air mixtures. During fire, gases hazardous to health may be formed. Firefighters should wear a self-contained breathing apparatus.

Special protective equipment and precautions for firefighters
Firefighters should wear full protective clothing including self-contained breathing apparatus.

Fire-fighting equipment/instructions
In case of fire and/or explosion do not breathe fumes. Move containers from fire area if you can do so without risk. Cool containers exposed to heat with water spray and remove container, if no risk is involved.

Specific hazards arising from the chemical
May include and are not limited to: Oxides of carbon. Oxides of sulfur.

6. Accidental Release Measures

Personal precautions, protective equipment and emergency procedures
Avoid contact with eyes.

Methods and materials for containment and cleaning up
Remove sources of ignition. Pick up towels and discard in trash. Wipe or mop up liquid, if any, and dispose of properly.

Environmental precautions
Avoid discharge into drains, water courses or onto the ground. Do not discharge into lakes, streams, ponds or public waters.

7. Handling and Storage

Precautions for safe handling
Keep away from open flames, hot surfaces and sources of ignition. When using do not smoke. Avoid prolonged or repeated contact with skin. Wear appropriate personal protective equipment. Wash thoroughly after handling. Use good industrial hygiene practices in handling this material.

Conditions for safe storage, including any incompatibilities
Store in a closed container away from incompatible materials. Store in a cool, dry place out of direct sunlight. Store away from incompatible materials (see Section 10 of the SDS). Keep in an area equipped with sprinklers. Keep out of reach of children.

8. Exposure Controls/Personal Protection

Occupational exposure limits

Canada. Alberta OELs (Occupational Health & Safety Code, Schedule 1, Table 2)

Biological limit values

No biological exposure limits noted for the ingredient(s).

Exposure guidelines

**Canada - Alberta OELs: Skin designation**

Distillates (petroleum), light hydrotreated (CAS 64742-47-8) Can be absorbed through the skin.

**Canada - British Columbia OELs: Skin designation**

Distillates (petroleum), light hydrotreated (CAS 64742-47-8) Can be absorbed through the skin.

**Canada - Saskatchewan OELs: Skin designation**

Distillates (petroleum), light hydrotreated (CAS 64742-47-8) Can be absorbed through the skin.

**Appropriate engineering controls**

Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level.

**Individual protection measures, such as personal protective equipment**

**Eye/face protection**

Not normally required when used as directed. Avoid contact with eyes.

**Skin protection**

**Hand protection**

Wear protective gloves.

**Other**

As required by employer code.

**Respiratory protection**

Not normally required.

**Thermal hazards**

Not applicable.

**General hygiene considerations**

When using do not smoke. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Wash hands before breaks and immediately after handling the product.

**9. Physical and Chemical Properties**

**Appearance**

Towel saturated with colorless liquid

**Physical state**

Liquid.

**Form**

Towel

**Color**

White

**Odor**

Floral

**Odor threshold**

10. Stability and Reactivity

- **Reactivity**: This product may react with oxidizing agents.
- **Possibility of hazardous reactions**: Hazardous polymerization does not occur.
- **Chemical stability**: Stable under recommended storage conditions.
- **Conditions to avoid**: Avoid heat, sparks, open flames and other ignition sources. Avoid temperatures exceeding the flash point. Do not mix with other chemicals. Contact with incompatible materials. Source of ignition.
- **Incompatible materials**: Acids. Oxidizers.
- **Hazardous decomposition products**: May include and are not limited to: Oxides of carbon. Oxides of sulfur.

11. Toxicological Information

- **Routes of exposure**: Eye, Skin contact, Skin absorption, Inhalation, Ingestion.
- **Information on likely routes of exposure**:
  - **Ingestion**: May cause stomach distress, nausea or vomiting.
  - **Inhalation**: Prolonged inhalation may be harmful.
  - **Skin contact**: No adverse effects due to skin contact are expected.
  - **Eye contact**: Direct contact with eyes may cause temporary irritation.
- **Symptoms related to the physical, chemical and toxicological characteristics**: Direct contact with eyes may cause temporary irritation.
- **Information on toxicological effects**:
  - **Acute toxicity**:
    - **Components**: Distillates (petroleum), light hydrotreated (CAS 64742-47-8)
    - **Species**: Rabbit, Cat, Rat
    - **Test Results**:
      - **Acute**: Dermaled

**Skin corrosion/irritation**

- Prolonged skin contact may cause temporary irritation.
- Not available.
- Not available.
- Not available.

**Serious eye damage/eye irritation**

- Direct contact with eyes may cause temporary irritation.
- Not available.
- Not available.
- Not available.
- Not available.

**Respiratory or skin sensitization**

**Canada - Alberta OELs: Irritant**

- Acetic acid, phenylmethyl ester (CAS 140-11-4) Irritant
- Phenol, 2,6-bis(1,1-dimethylethyl)-4-methyl- (CAS 128-37-0) Irritant

- Not available.

**Mutagenicity**

- Non-hazardous by WHMIS/OSHA criteria.

**Carcinogenicity**

- Not classified or listed by IARC, NTP, OSHA and ACGIH.

**IARC Monographs. Overall Evaluation of Carcinogenicity**

- Acetic acid, phenylmethyl ester (CAS 140-11-4) Volume 40, Supplement 7, Volume 71 - 3 Not classifiable as to carcinogenicity to humans.
- Phenol, 2,6-bis(1,1-dimethylethyl)-4-methyl- (CAS 128-37-0) Volume 40, Supplement 7 - 3 Not classifiable as to carcinogenicity to humans.

- Not listed.

**Reproductive toxicity**

- Non-hazardous by WHMIS/OSHA criteria.

**Teratogenicity**

- Non-hazardous by WHMIS/OSHA criteria.

**Specific target organ toxicity - single exposure**

- Not classified.

**Specific target organ toxicity - repeated exposure**

- Not classified.

**Aspiration hazard**

- Not available.

**Chronic effects**

- Prolonged inhalation may be harmful.

---

### 12. Ecological Information

**Ecotoxicity**

- See below
Ecotoxicological data
Components Species Test Results
Distillates (petroleum), light hydrotreated (CAS 64742-47-8)

Aquatic
Crustacea EC50 Water flea (Daphnia pulex) 2.7 - 5.1 mg/L, 48 hours
Fish LC50 Rainbow trout, donaldson trout (Oncorhynchus mykiss) 2.9 mg/L, 96 hours

Siloxanes and Silicones, dimethyl- (CAS 63148-62-9)

Aquatic
Fish LC50 Channel catfish (Ictalurus punctatus) 2.36 - 4.15 mg/L, 96 hours

Persistence and degradability
No data is available on the degradability of this product.

Bioaccumulative potential
No data available.

Mobility in soil
No data available.

Mobility in general
Not available.

Other adverse effects
No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

13. Disposal Considerations

Disposal instructions
Review federal, state/provincial, and local government requirements prior to disposal. Collect and reclaim or dispose in sealed containers at licensed waste disposal site. This material and its container must be disposed of as hazardous waste. Do not allow this material to drain into sewers/water supplies. Do not contaminate ponds, waterways or ditches with chemical or used container.

Local disposal regulations
Dispose in accordance with all applicable regulations.

Hazardous waste code
The waste code should be assigned in discussion between the user, the producer and the waste disposal company.

Waste from residues / unused products
Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).

Contaminated packaging
Empty containers should be taken to an approved waste handling site for recycling or disposal. Since emptied containers may retain product residue, follow label warnings even after container is emptied.

14. Transport Information

Transport of Dangerous Goods (TDG) Proof of Classification
Classification Method: Classified as per Part 2, Sections 2.1 – 2.8 of the Transportation of Dangerous Goods Regulations. If applicable, the technical name and the classification of the product will appear below.

U.S. Department of Transportation (DOT)
Not regulated as dangerous goods.

Transportation of Dangerous Goods (TDG - Canada)
Not regulated as dangerous goods.

15. Regulatory Information

Canadian federal regulations
This product has been classified in accordance with the hazard criteria of the HPR and the SDS contains all the information required by the HPR.

Canada NPRI VOCs with Additional Reporting Requirements: Mass reporting threshold/Identification Number
Distillates (petroleum), light hydrotreated (CAS 64742-47-8) 1 TONNES

Export Control List (CEPA 1999, Schedule 3)
Not listed.

Greenhouse Gases
Not listed.

Precursor Control Regulations
Not regulated.

WHMIS 2015 Exemptions
Not applicable

US federal regulations
This product is a “Hazardous Chemical” as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200.

TSCA Section 12(b) Export Notification (40 CFR 707, Subpt. D)
Not regulated.

CERCLA Hazardous Substance List (40 CFR 302.4)
Not listed.

Disclaimer

The data contained in this material safety data sheet was obtained from sources that were technically accurate, reliable, and state of the art when this document was prepared. If data was unavailable to complete certain sections, the absence of that data is identified in this document. Because the supplier cannot know the exact circumstances during actual use of this product, other hazards, exposure scenarios, disposal considerations, and regulations may apply and it is the responsibility of the user to read and understand the product label and this document before use. Do not use the product for purposes other than those stated in Section 1.
